

## **Abstract**

### **Communicating Strategic Foresight – a Singapore Economic Agency Perspective**

The Futures Group of the Ministry of Trade and Industry (MTI) is a forerunner among the government foresight units in Singapore. The role of foresight in MTI is intended to anticipate changes which might have economic impact, help in the process of changing viewpoints and sensitise policymakers to emerging issues, with the view to facilitating decision-making and policy development. The talk will share on the Futures Group's experience in using a variety of media tools to communicate our insights to government stakeholders and decision-makers.
