

Panel 2: Sense-making For Intelligent Policies

Speaker: Peter Quek

Group Director (Information Systems & Geospatial),
Urban Redevelopment Authority

Peter Quek is the Group Director in charge of the Information Systems & Geospatial Group at URA. As a URA scholar, Peter graduated with an Engineering honours degree from the National University of Singapore and holds a Master of Science in Management of Technology from the Massachusetts Institute of Technology (MIT). He has over 20 years of working experience in enterprise IT governance and implementation.

As the Group Director in charge of Information Technology and Geospatial in URA, Peter oversees the strategic deployment of Geospatial Data and Analytics, Information Technology and knowledge management to transform key businesses to meet new organisation challenges. Over the years, URA has received numerous international and local awards for strategic enterprise IT implementations in Geographical Information System (GIS), various enterprise systems and electronic services. One strategic project Peter and his team is working on is the innovative use of geospatial data and analytics in an advanced 3-D urban model system to facilitate land use and urban planning efforts in URA to meet new challenges for Singapore.
