

## Panel 4: Analysing Big Shifts in Global Issues

### **Moderator: Paul Saffo**

Chair, Future Studies and Forecasting, Singularity University

Paul is a Silicon Valley-based forecaster with over three decades of experience, helping corporate and governmental clients understand and respond to the dynamics of large-scale, long-term change. He teaches at Stanford, where he is a Consulting Associate Professor in the School of Engineering, and chairs the Future Studies track at Singularity University. Paul is also a non-resident Senior Fellow at the Atlantic Council, a Distinguished Visiting Scholar in the Stanford Media-X network, and a Fellow of the Royal Swedish Academy of Engineering Sciences. Paul sits on the boards of the Long Now Foundation, and the Bay Area Council Economic Institute. Previously, Paul was the Founding Chair of the Samsung Science Board, a member of the AT&T Technical Advisory Board and a member of the U.S. Air Force Science Advisory Board. He has been an advisor to numerous investment entities and technology start-ups, and was the Co-Founder of a big data analytics company providing services to Wall St. Investors. Paul holds degrees from Harvard College, Cambridge University, and Stanford University.
